

DICENTIS Transport Case for 8 Devices

www.boschsecurity.com

BOSCH
Invented for life

- ▶ Robust and proven construction
- ▶ Holds Wireless Access Point, eight Wireless Devices and microphones
- ▶ Equipment shaped foam interior
- ▶ Easy to pack, unpack and transport equipment
- ▶ Roller wheels for convenient transportation and cushion grip handles; trigger release latches

The Transport Case (DCNM-TC) is used for storing and transporting wireless equipment. It has compartments for one Wireless Access Point (including power supply adapter, which could be stored under the Wireless Access Point), eight Wireless Devices, eight High Directive Microphones and eight Stem Microphones (short/long).

The Transport Case is manufactured from proven material to ensure for adequate protection of your wireless equipment during transportation and storage. The handles and latches are recessed and protected. The shaped foam interior ensures for smooth and fast packing and unpacking of equipment. The Transport Case has a retractable handle and two sets of wheels for convenient ground transportation and to prevent unnecessary lifting. The Transport Case has two sets of steel-reinforced eyes for securing locking the case with padlocks.
